I began working in the film industry in 1998 while attending film school. Before that I was self-employed installing cable television in domestic and commercial buildings.

I have a lovely wife and I am the proud father of three children. I think Calvin and Hobbes is the best cartoon series ever and my favourite movie is "Zoolander".

I have been a Minister of Religion for the last 6 years and enjoy marrying people in my spare time. I also attempt to paint pictures on the weekend and play games on the computer.

Thanks for reading.
